

Kims Play.

Five to ten objects nature object are put in a frame of sticks. The children sit in a circle and look on the objects for a little while and together they tell the names of the objects. Cover the objects with a cloth and the children close their eyes and the you take away one object. The children open their eyes and try to see what object that is missing.

Send children on a scavenger hunt

Find

- something beautiful
- something red
- something green
- something tiny
- something bigger than your hand
- something that bends
